Full Stack Web Developer

9228891006

vaibhavsarvaiya35@gmail.com

Surat, India

## Summary

Full Stack Web Developer with MERN stack knowledge. Passionate about building web applications and learning new technologies. Skilled in front-end and back-end development. Strong problem-solving abilities and a quick learner.

## Education

SDJ INTERNATIONAL COLLEGE

Surat, Gujarat

BCA stands for Bachelor of Computer Applications.  
2025

## Technical Skill

- Front-End: React.js, JavaScript, Bootstrap, Tailwind CSS
- Database: MongoDB, Mongoose
- Back-End: Node.js, Express.js
- Version Control: Git, GitHub
- Other Tools: Postman (API testing),

## Experience (Projects)

As a Full Stack Web Developer, I have worked on multiple projects using the MERN stack. My experience includes developing a Project Management System for handling project details, budgets, and client interactions, a social media platform (Creavo - The Hub of Creative Minds) that connects users and fosters creativity, and an Inventory Management System for efficient inventory tracking and management. These projects have strengthened my skills in front-end and back-end development, authentication, database management.

## Projects:

### Project Management System

*Major Project of My College | Next.js & PostgreSQL*

- Developed a web-based system for managing projects, including budgets, payments, invoices, File manager, Portfolio and client details.
- Implemented a client portal where users can track project progress and leave comments.
- Integrated email notifications for client login credentials.

### Creavo - The Hub of Creative Minds (Social Media Website)

*Minor Project | MERN Stack*

- A social media platform designed to connect creative individuals, allowing them to share their work, engage with others, and grow their network.
- Users can create profiles, post content, like, comment, and follow other creators.
- The platform includes real-time updates, media uploads, and an interactive UI.
- Developed with the MERN stack, it offers a responsive and engaging user experience.
